RUG CARE GUIDE

To keep your rug looking its best for as long as possible we have created some top tips on how to care for your new cotton rug

Cotton - good to know

Made from cotton fibres - a renewable and natural resource. Cotton rugs are often flat woven, slimline and have no pile, meaning they are easy to care for and clean.

Un-rolling your rug

To help your rug lay flat, unroll your rug, flip over, re-roll and leave in a warm room for 24 hours. This will help reduce any wrinkles from packing.

Day to day care

Everyday dust and dirt are easy to clean from a cotton rug. Simply shake or beat your rug to dislodge any debris and gently vacuum with the nozzle attachment.

Loose ends

Snip any loose fibres carefully with scissors - never pull.

Safety first

Add an anti-slip underneath your rug to prevent the rug from slipping.

Spills

Act fast and blot liquid spills immediately. Spot clean as needed with a dampened white cloth only. If the stain remains use a mild detergent to blot the area or gently rub until the stain lifts.

Long term care

Rotate every 3 months to avoid uneven fading and wear.

AFTER OPENING

Re-roll your rug pile out for 24 hours to reduce curling. Regularly turn to ensure even wear.

WE RECOMMEND

An anti-slip mat will help prevent slipping.

SUCTION VAC

Use a suction type vacuum - rotating brushes may damage this rug.
